

Draft text for disseminating information about becoming an RBT

(Target audience: 17-21 year olds, including high school, postsecondary, unemployed, those looking to switch jobs or add part time work)

Questions to answer:

1. What format would be best? What should the look be?
2. How would this be disseminated?
3. What are the target locations/people to get this information to?

Emails?
Flyers?
Newspapers?
Social Media?

ASD websites
High schools
Colleges
DETR
Unemployment
offices

Draft text

Would you like to change someone's world?

Autism therapists work with children, teens, and families living with autism spectrum disorders. They learn ABA to teach new skills, make new connections, and help turn challenging behavior around. ABA is the science of understanding behavior in order to change that behavior through specific interventions. Working with people with ASD is exciting, demanding, and rewarding!

How do I begin?

spell these out the first time

Therapists earn a national credential to become a Registered Behavior Technician to become qualified to work with families. You can do this on your own or through an ABA provider company that hires you.

Where can I find more information?

For more information on the RBT credential, go to www.bacb.com/rbt

Maybe
mention some
basics?

For information about opportunities in Nevada, go to (?????? ATAP?????)

ATAP
